

Curriculum Vitae
Andrew E. Long

Work Address:

Department of Mathematics and
Statistics
Northern Kentucky University
Highland Heights, KY 41099
(859) 572-5794
longa@nku.edu
www.nku.edu/~longa

Home Address:

495 Rossford Avenue
Ft. Thomas, KY 41075
(859) 781-3916

EDUCATION

Miami University, Oxford, OH - Global Field Program
M.A., Zoology, 2011
The University of Arizona, Tucson, AZ -
Ph.D., Applied Mathematics, 1994
Dissertation: "Cokriging, Kernels, and the SVD:
Toward Better Geostatistical Analysis"
Director: Dr. Donald E. Myers
The University of Arizona, Tucson, AZ -
M.S., Applied Mathematics, 1991
California Institute of Technology, Pasadena, CA -
Two quarters in Applied Mathematics, 1984-1985
Bowling Green State University, Bowling Green, OH -
B.S. (*Summa Cum Laude*), Mathematics and Physics, 1983

RESEARCH AND PROFESSIONAL INTERESTS

Global Climate Change, Environmental Mathematics, Math Modelling,
Geostatistics and Spatial Analysis, Mathematical Biology,
Computers in Math Instruction and Research, Numerical Analysis

HONORS

Outstanding Junior Faculty Member Award 2002-2003, NKU College of
Arts and Sciences.
Appointed Member, MAA Committee on Mathematics and the Environment
(2003-2005).
Senior Fulbright Scholar, Benin, West Africa. 1997-1998.
Second Prize, Graduate Students in Mathematics and the Physical Sciences,
First Annual Student Showcase, University of Arizona, 1993.
Phi Kappa Phi Graduate Fellowship, 1984.
Phi Kappa Phi and Phi Beta Kappa, 1983.
First Prize in the Regional Kappa Mu Epsilon meetings, 1982, for a talk
concerning numerical solutions of partial differential equations.
Recipient of Undergraduate Physics Research Award, 1983, funding research
on low-temperature physics (superconductivity).

EMPLOYMENT

- 2005-present: Associate Professor, Northern Kentucky University
Department of Mathematics and Statistics
- 2000-2004: Assistant Professor, Northern Kentucky University
Department of Mathematics and Computer Science
- 1998-2000: Senior Post Doctoral Fellow, Department of Epidemiology,
University of Michigan, and Research Scientist, BioMedware, Inc.
Ann Arbor, MI.
- 1997-1998: Senior Fulbright Scholar, Institute of Mathematics and Physics,
Porto Novo, Benin, West Africa.
- 1996-1997: Loyola University Medical Center, Chicago, IL
Research Associate, Department of Preventive Medicine and Epidemiology
- 1995-1996: Ripon College, Ripon, Wisconsin
Visiting Assistant Professor, Mathematics and Computer Science
- 1994-1995: University of Wisconsin-Oshkosh, Oshkosh, Wisconsin
Lecturer, Mathematics Department
- 1991-1997: United States Geological Survey Consultant, Tucson, Arizona
- 1990-1994: University of Arizona, Tucson, Arizona
Graduate Teaching Assistant, Department of Mathematics
Obtaining and maintaining computer software; directing a departmental
seminar on software development and use.
Graduate Research Assistant, Department of Mathematics
Geo-statistical software development and testing, concerning estimation
and interpolation of spatially coherent phenomena.
Graduate Research Assistant, Department of Ecology and Evolutionary Biology
Developing analytical and computer models to describe the origin
of sexuality in primitive organisms.
- 1986-1989: United States Peace Corps Volunteer, Bassar, Togo, West Africa
Served as a mathematics teacher (instruction in French) at the Lycée de Bassar
(\approx U.S. high school level) to students in their final two years
- 1985-1986: Substitute Teacher, Bowling Green City Schools (Jr. High and High School)
- 1984-1985: Teaching Assistant, California Institute of Technology, Pasadena, CA
- 1982-1983: Teaching Assistant, Bowling Green State University, Bowling Green, OH

GRANTS

- 2016:
College of Arts and Sciences Collaborative Faculty Student Project Award
- 2012:
CINSAM Course Release Grant, awarded to permit me time to create a course on global climate change for STEM majors.
Sabbatical, Fellowship, and Project Grant, awarded for academic year 2013-2014.
Theme: Global climate change, particularly in the forests of Canada.
In association with the Canadian Ecology Centre, Mattawa, ON.
- 2008:
CURM (Center for Undergraduate Research in Mathematics) mini-grant for the 2008-2009 academic year (supports three undergraduate researchers).
- 2006:
Sabbatical awarded for academic year 2006-2007.
Theme: Sustainable development and education in Ranquitte, Haiti.
In association with Christian Flights International, Kentucky.
“Calculus Lab: Recipe for Retention and Academic Success for the STEM Disciplines”, an NKU Strategic Enrollment Management grant, with Kirsty Fleming (Mathematics).
- 2005:
Coauthor of “Working Together to Build Better Brains”,
An NKU University-Community Partnerships grant (\$50,000, two years), with David Agard and Michael Waters (Mathematics).
- 2004:
Image Processing CINSAM grant, with Don Krug (Mathematics) and Greg Dahlem (Biology).
Fuzzy Set Ordination, FCTLT Grants for Faculty Scholarship and Creative Activity, with Rick Boyce (Biology).
- 2003:
Principal Investigator on “SBHC Evaluation Project: A Partnership of Northern Kentucky University’s Department of Mathematics and Computer Science and The Kentucky School Based Health Center (SBHC) Collaborative” An NKU University-Community Partnerships grant (\$75,000, two years).
- 2002:
Subcontractor on American Heart Association Grant (#0130229N)
“Physical Activity in the Context of the Environment”
(with researchers at UNC, January, 2001- January, 2003)
Faculty summer fellowship. Investigations in the Design of a Computer-Driven Classroom Function Demonstrator (the Function Box project)
Faculty project grant (in support of the Function Box project)
CINSAM grant (in support of the Function Box project)
“Supercomputer on the Cheap: A Small KLAT2-like Cluster of PCs”
CINSAM grant
- 2001:
“Summer Experience for Young Scientists” CINSAM grant, with Macel Wheeler (History and Geography).

TALKS

2018:

Climate Change in Togo, West Africa: 3 degrees C hotter (or so) by the end of the century.; Nipissing University, Ontario, Canada (11/2018), and the Kentucky Section of the MAA (3/2019)

2017:

Modeling Climate Change: Seasonal Changes in Early 20th Century Nova Scotia; Nipissing University, Ontario, Canada (9/2017).

Five Easy Pieces: Mathematics and Music; NKU Pop-up conference on Mathematics and Music, 4/2017

Modeling Climate Change: Seasonal Changes in Early 20th Century Nova Scotia; Joint Mathematics Meetings, Atlanta, Georgia, 1/2017 (with three colleagues).

2016:

Systems and Systems Modeling. Spring Connections Speaker for CINSAM.

2015:

Climate Conversations: Monthly Discussions of Climate Change.

With CINSAM and NKU's Center for Environmental Education

2014:

Planetary Emergency: the Carbon Crisis Across the

Curriculum. CINSAM Series on Transdisciplinarity, NKU.

2013:

January: *Global Climate Destabilization: Optimal Opportunity for the Mathematics of Planet Earth*. Joint Mathematics Meetings, San Diego, CA.

2011:

January: *Global Warming-based Calculus*. Joint Mathematics Meetings, New Orleans, LA.

2008:

January: *A Computer-Controlled Function Box for Plotting Surfaces* Joint Mathematics Meetings, San Diego, CA; repeated in March at the KYMAA meeting, Western Kentucky University.

March: *Optimal Placement of Fixed Solar Panels*, KYMAA meeting, Western Kentucky University.

May (invited talk): *Lies, Damned Lies, and Spatial Statistics: Can Variance Be Our Friend?*. The Confluence of Biology and Mathematics in the Commonwealth. Murray State University.

2005:

January: *Raccoons Gone Mad! Modeling an Epidemic of Raccoon Rabies*. Joint Mathematics Meetings, Atlanta, GA; MAA Session on Environmental Mathematics and the Interdisciplinary

2004:

March: *The Creation, Care and Feeding of an Undergraduate-Centered Mathematical and Statistical Consulting Center*. AMS-MER Workshop on Excellence in Undergraduate Mathematics: Mainstreaming In-Depth Mathematical Experiences for Students.

April: *Fun with Rabies: modeling of an epidemic, or an epidemic of modeling?* Kentucky Section of the Mathematical Association of America

Annual Meeting.

2000:

Curvemesh Interpolation (Miami University of Ohio)

1999:

*Simple Skins for Matrices (and Other Meshes) Surface Fitting via
Matrix SVD (Ohio MAA Conference, Wooster, OH)*

*News from the Educational Front: Teaching Advanced Public Health
Students Spatial Epidemiology (University of Michigan)*

1998:

*The GeoMed Project: GIS and Spatial/Temporal Statistics in Public Health
(Benin Conference, Benin, West Africa)*

*Raccoon rabies: Characterizing the Space-Time Spread in Connecticut, USA
(Geomed Conference, Paris, France)*
